Mr. R. H. Torrey,
New York Evening Post,
New York.

Dear Sir:-

In accordance with the suggestion made by telephone a few days ago, I am enclosing some photographs of medals relating to Napoleon Bonaparte which will be on exhibition in the Museum of this Society after May 5th, and should be very glad to have you use these in the Graphic Section in any way you see fit. I must request, however, that they not be used in advance of May 5th, the day set for the opening of the exhibition.

This exhibition is of a collection is of an exhibition recently presented to our Museum by Mr. William R. Powell of New York, and consisting of five thousand medals and coins relating to Napoleon Bonaparte and the Napoleonic era in Europe. It is probably one of the finest collections of the sort in the world, and certainly can not be surpassed in this country. I should be very glad to give you any additional information in regard to it if you so desire.

Very truly yours,

Assistant to Curator.
